

4-30-00
IZMIT - TÜRKİYE Hi! I'm now in

a refugee camp (300 families) about 30 min. from the school site. I'm mainly helping in the medical clinic; everything from making tea to counting pills. I also scrub pots and pans after every meal in our "M.A.S.H. style staff mess hall, including gravel floor. There's running water there but not in our living quarters. I also do other odd jobs like pinch hitting for the English teacher or legging denotations. There's a new team of Drs. coming next week. They only come for two weeks, so hard for continuity. Still no word on my permission!
